

INCLUSIVE GROWTH FOR GENERATIONS

BIO PHARMA LABORATORIES PVT. LTD., a company incorporated in 1957 caters to the growing Pharmaceutical and Nutraceutical needs worldwide. The company is part of BBM Group, a 104 years old business conglomerate from Andhra Pradesh, India. The BBM Groups has diversified business interests across verticals such as Pharmaceutical, Nutraceutical, Infotech, Renewable energy, Logistic & Duty Free Hospitality and infrastructure sectors. The Group's export footprint spans across 84 countries, with offices in 12 countries including Dubai, Singapore, Panama and India.

Bio Pharma Laboratories manufactures a wide array of health ingredients for a broad base of clientele.

BIOPHARMA defines growth and innovation as an opportunity to provide enhanced health services to people, through pioneering Research & Development in accordance with the latest principles to ensure safe and secured wellness. We have a great vision, coupled with passion for developing innovative Pharmaceutical & Nutraceutical ingredients that have moulded the company in to a base for high end food and natural products.

QUALITY ASSURANCE / QUALITY CONTROL

Our quality standards are extremely stringent and accepted worldwide. QC procedures are followed from testing of raw materials to in-process and finished goods. CGMP and ICH guidelines are adhered to at every step. To aid this we have modern sophisticated analytical instruments such as HPLC and GC and spectrophotometer.
