About company

At present we produce a wide range of paintwork materials meeting the highest requirements. We offer the following materials: facade paints, including modified silicone paints, interior paints, anti-vandal paints with high resistance to abrasion (up to 50 thousand wash cycles), varnishes and paints for the joinery industry, antiseptic impregnations and primers, fire protective paints for metal, wood, air ducts and cables. All paints are tinted according to catalogs: SYMPHONY, MONICOLOR NOVA, NCS, RAL, etc.

Fire protection paints finntella® INDUSTRIAL, corrosion protection paints (alkyd, polyurethane and epoxy), facade paints, decorative plasters finntella® LUX and compositions for exterior and interior finishing, varnishes and paints for the wood industry have the widest range of applications.

About products

Our product range includes unique products such as:

- high-quality washable and water-resistant superwhite and tintable interior paints for baths, kitchens, children's rooms, food industries
 - eggshell and absolutmatte interior coatings
 - coatings for interiors of the first resistance class

 - thixotropic non-gliding paints with increased covering power
 - self-cleaning façade paints with polyolite hydrophobic coating
 - paints for medical facilities, replacing tiles
 - primers and primer-concentrates with increased adhesion
- 
- A decorative graphic at the bottom of the page consisting of several overlapping, wavy, horizontal bands of color. The colors transition from dark blue on the left, through green, yellow, orange, and red, to a lighter yellow on the right, creating a sense of movement and depth.

Advantages

- ✓ Recipes are developed in Scandinavian, British and Canadian institutes
- ✓ Modern production methods guarantee our customers strong, durable and safe products
- ✓ Our coatings not only provide an attractive surface appearance (decorative properties), but primarily protect it from the destructive factors of the environment

Terms of cooperation
